PROFESSIONAL EXPERIENCE

Business Development Executive

coderzhunt

03/2025 – 11/2025

- Drive acquisition of **high-value projects** through strategic bidding, competitive analysis, and market-specific optimization, consistently improving conversion rates and deal quality.
- Plan, execute, and optimize **cold email campaigns** targeting US-market clients using **Apollo.io**
- Build and sustain **long-term client partnerships**, ensuring high satisfaction, repeat engagements, and scalable revenue growth.

- Collaborate closely with **cross-functional technical teams** to translate business requirements into tailored, high-impact software solutions aligned with client objectives.
- Lead the development of **compelling, customized proposals**, articulating clear value propositions, technical differentiation, and delivery feasibility in competitive environments.
- Analyze **industry trends, pricing models, and competitor strategies** to continuously refine bidding and client acquisition approaches.

Business developer

Alora

05/2024 – 12/2024

- Proactively identify, qualify, and secure **high-quality projects** through structured bidding strategies, maintaining a consistent and goal-aligned sales pipeline.
- Develop and manage **long-term client relationships**, driving repeat business, retention, and sustainable partnerships.
- Analyze client requirements in depth and collaborate with **technical teams** to deliver accurate, value-driven software solutions aligned with business objectives.
- Lead the creation of **clear, persuasive proposals** that effectively communicate value, technical capabilities.
- Track **market trends, pricing benchmarks, and competitor activity** to continuously optimize bidding and positioning strategies.
- Consistently meet and exceed **monthly KPIs**, including client acquisition, conversion rates, and revenue growth through disciplined execution and planning

Sales Representative

Musq Global

09/2023 – 04/2024

- Delivered high-impact sales presentations to prospective clients, clearly demonstrating the value of mobility, home security, and internet solutions, resulting in increased client conversions and upsells.
- Maintained detailed sales records and activity logs using advanced computer skills and Google Sheets, enabling seamless tracking and follow-up processes across product lines.
- Built and maintained strong client relationships through professional English communication, addressing concerns promptly and customizing solutions to meet specific needs.
- Closed high-value deals by identifying customer pain points in connectivity and security, positioning bundled solutions as cost-effective and reliable.
